New players aren't just cheaper, they're faster.
They compete with:

- ✓ Zero commissions & low fees
- ✓ Digital-first UX
- ✓ Value add services like securities lending

They're not only lowering barriers — they're *redefining expectations*.

The securities presented above are based on Sharegain's proprietary lending data, which may incorporate information from third-party securities financing data providers. The potential lending returns shown are an approximation derived from certain assumptions and estimations for the period between 1 September and 30 September 2025 and are for informational purposes only. The lending rates displayed represent the approximate 'price' borrowers are paying to borrow selected securities within the given date range and are subject to change. This is quoted as a percentage (annually). Investing in securities involves risk, and past performance or demand does not necessarily predict future results. The inclusion of specific securities on this list does not constitute an endorsement or recommendation to buy, sell, or hold any security. Investors should conduct their own research and consult with a qualified financial advisor before making any investment decisions.
