Peaks chose Sharegain to launch securities lending

London, February 11, 2026: – Dutch online investment platform Peaks has partnered with Sharegain to launch 'Lend & Earn', a new securities lending feature for its customers.

Tom Arends, CEO & Founder of Peaks said: "We're always looking for ways for our customers to get more out of their investments. 'Lend & Earn' offers them an opportunity to generate extra income in one click. Since launch, more than a third of our user base has already opted in."

Saul Dawes, Head of Sales, EMEA, at Sharegain, added: "We're excited to partner with the team at Peaks. The speed of adoption reinforces what we're seeing across the market: retail investors want to make their portfolios work harder. Our solution makes it possible for any broker to launch and scale securities lending and bring it to even more people globally."
