Sharegain Market Spotlight

Securities Lending in Spain

Market overview

Across Europe, financial institutions are using securities lending to unlock new revenue for their business and generate additional income for their clients.

STATUS UPDATE:

In Spain, it's GO TIME.

Securities lending was already active in the Spanish market – but as of October 2025, funds are officially in the game. It’s a breakthrough that opens the door to broader participation and new revenue for investors and institutions alike.

With major players going live and others moving fast to launch, competition is heating up. The race to lead in a fast-evolving market is on.

Why now?

- Generate revenue from existing client assets.
- Create new passive income opportunity for clients.
- Gain competitive advantage by acquiring new clients, retaining existing ones, and increasing client satisfaction.

Who’s leading the way?

- ✓ flatexDEGIRO: NEW
- ✓ eToro
- ✓ Bankinter
- ✓ GVC Gaesco
- ✓ BUX

Oryzon Genomics Sa	Atrys Health Sa	Soltec Power Holdings Sa
ORY SM	ATRY SM	SOL SM
70%	11%	6%

The securities presented above are based on Sharegain’s proprietary lending data, which may incorporate information from third-party securities financing data providers. The potential lending returns shown are an approximation derived from certain assumptions and estimations for the period between 1 January 2025 and 16 October 2025 and are for informational purposes only. The lending rates displayed represent the approximate ‘price’ borrowers are paying to borrow selected securities within the given date range, and are subject to change. This is quoted as a percentage (annually).

Why Sharegain?
