Then, how much borrowers paid over the period.

+€41,830

4.2x

the initial investment on top of share price performance.

Past performance is not indicative of future outcomes. Return is expressed in cash terms and is based on the security's average annualised lending rate of 168% over the period, applied to a hypothetical €10,000 continuously invested in Haffner Energy SA and continuously on loan between 1 January–23 September 2026. Rates vary with demand; income is shown gross, before fee splits, is subject to individual tax treatment, and reflects fees paid by borrowers. Based on Sharegain's proprietary lending data, which may incorporate information from third-party securities financing data providers. Actual results may vary.

For professional use only

With securities lending, as with other investment activities, your capital may be at risk.

Past performance is not indicative of future outcomes. For institutional use only. This material is provided for informational and illustrative purposes only and is not investment advice, a recommendation, or an offer or solicitation to buy or sell any security or to enter into any securities lending transaction. The figures shown are hypothetical and illustrative. They assume a hypothetical €10,000 continuously invested in Haffner Energy SA and continuously on loan between 1 January–23 September 2026; the security is one of the top five in our pool by average lending rate in August 2026. Lending income is shown gross, before fee splits, is subject to individual tax treatment, and reflects fees paid by borrowers; income actually received by a lender would be lower. This is a case study and is not representative of all lendable securities, of any portfolio, or of typical or expected results, and is not a forecast. Share prices can fall as well as rise. Securities lending rates and borrowing demand fluctuate. Based on Sharegain's proprietary lending data, which may incorporate information from third-party securities financing data providers.
